About Maritime

The Maritime Consortium, Inc. has grown to become the largest and most comprehensive drug testing consortium serving the marine industry. Maritime focuses exclusively on Coast Guard drug and alcohol testing compliance services, enabling us to have full knowledge of the regulations. Our dedicated staff works directly with officials from Coast Guard Headquarters to clarify the regulation and incorporate changes in the rules.

Founded in 1989, Maritime was created by and for the marine industry, and is endorsed by the two largest trade associations serving small marine businesses, C-PORT and the National Marine Charter Association. Maritime members include independent captains, sailing schools, passenger carrying vessels, marine towing, barge and salvage firms, offshore supply vessels, party boats, charter boats and numerous other firms covered by the Coast Guard regulation.

Nationally Accredited

Nationally Accredited for Administration of Drug and Alcohol Testing Programs (NAADATP), Maritime is in a select group of companies required to maintain and demonstrate professional competency, proper insurance, and policies to protect client confidentiality, accountability and client service. Administered by a committee of the Drug and Alcohol Testing Industry Association, NAADATP accreditation requires completion of a comprehensive training and exam.

The NAADATP accreditation is of key importance, setting and requiring strict industry standards. Maritime is currently the only consortium exclusively serving Coast Guard regulated employers to hold this prestigious status. Since its inception, Maritime has been committed to excellence, through guaranteed compliance with all applicable drug testing rules, including 49 CFR 40 and 46 CFR 4, 5, and 16.

Maritime Keeps You in Compliance

By joining today, you will ensure that Maritime will provide you with all of the required paperwork, record keeping, random number generation, report submission the Coast Guard and chain of custody test forms required by the regulation and more. Maritime membership guarantees 100% compliance with all Coast Guard drug and alcohol testing policies.

Maritime enrollment includes all random, reasonable cause and follow-up testing for each enrolled crewmember, regardless of the number of times they are selected for tests during the enrollment period. Please read the Maritime Member Contract for details on all of the services you will be provided, as well as important information on pre-employment testing.

Maritime Offers Unlimited Crew Switching

Maritime continues to offer unlimited switching of crew. Within your enrollment term, if a renewed crew member leaves, you may hire a replacement and not be subject to the annual membership fee. If the renewed individual does indeed return, they may not be subject to pre-employment testing. Maritime's unlimited switching is one of our most popular features!

Serious Marine Accident (SMI) Alcohol and Drug Testing Requirements

The Coast Guard requires each commercial vessel which is more than 2 hours from an open collection site capable of doing alcohol or drug test to have an alcohol test device on board to administer to each person involved in a potential accident, as well as report for a drug test to the closest facility.

Section 4-06-1(b) requires that marine employers "take all practicable steps to have each individual engaged or employed on board the vessel who is directly involved in the incident chemically tested for evidence of drug and alcohol use."

The Maritime M-PAK®

Maritime has developed the M-PAK® to guarantee full compliance with this new rule. The M-Pak contains:

- The required DOT approved alcohol screening device (ASD) and instructions for its use
- A Federal Chain of Custody (COC) form for the drug test, which includes a full Coast Guard compliant drug test and collection at no fee
- Post-accident instructions including Federal Forms from the Coast Guard, including the updated form for providing the alcohol results
- The Coast Guard's requirement for training on the alcohol screening device's use is met with a Maritime developed one page Fact Sheet summary
- The M-PAK® is stored in a waterproof and tear-proof envelope uniquely suitable for the marine environment

It is recommended that you maintain one for each of your crewmembers. Please note: If you do not maintain current M-Paks on board your vessel and are involved in a Serious Marine Incident, you will be responsible for all costs associated with post-accident testing.

Why join now, when I may not be in season?

Even if your current season is complete, by joining now, you will be ready to go when your season begins. Let Maritime worry about your drug and alcohol-testing program compliance, so you can concentrate on running your business. Simply provide Maritime with an off-season mailing address and phone number for use in the event that you are selected for random testing.

How Do I Enroll?

Maritime makes enrolling easy. Simply complete the enclosed application listing all captains and crewmembers; then submit the application to Maritime by mail, fax or online at www.drugfreevessel.com (click "Join").
